Leveraging our cloud platform partnerships and extensive experience, we have helped many Fortune-500 companies and start-ups from diverse industries embark on their cloud journey. Over the last decade, we have successfully led strategic cloud initiatives such as cloud-native design and development, monolithic to microservices architecture, enterprise cloud migration and cloud optimization for TCO, utilization, and improvement in operational metrics such as availability, resilience, and reliability.

With Now Cloud, you can delegate all the technical aspects of implementing secure cloud solutions to us while you focus only on the responsibilities that are crucial to the expansion and income of your business. Get in contact with us to learn about the best cloud strategy for your company and to receive a tailored plan for your particular requirements

Our Offerings

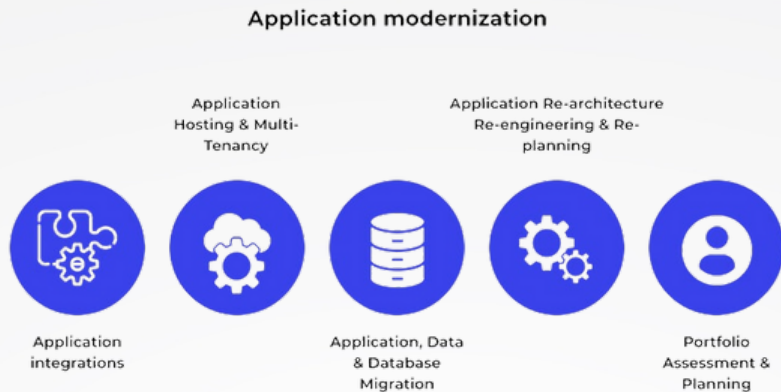

Cloud Advisory

Creating meaningful cloud objectives and strategies is the first step in achieving growth in the appropriate directions. Now Cloud offer specialised cloud advising services such as technical infrastructure analysis, cloud readiness tests, cloud strategy development, and rigorous cloud architecture planning.

Cloud Application Modernization

Utilize cloud modernisation technologies to stay aware of client needs and one step ahead of the market dynamics and trends. With Now Cloud expert-led cloud migration services, you can move your application to the cloud and get it ready for any situation or scenario.

Managed Cloud

With the help of our Managed Cloud modules, we provide the most specialised and efficient cloud support services. Industry experts are on hand around-the-clock, 24X7 to address your specific cloud-related issues, close security gaps, offer extended technical support, manage cloud applications, and much more. Now Cloud guarantees that your organisation won't experience any operational disruption with a short TAT.

Managed Cloud

Cloud Backup And Recovery

Now Cloud provide the most secure data backup and recovery services on the market because you will be handling some of the most sensitive information in your business, such as intellectual property. To give your data the best protection possible, we use a 256-bit encryption system and adhere to industry standard protocols.

Partnerships

Now Cloud has led strategic cloud initiatives such as cloud-native design and development, monolithic to microservices architecture, enterprise cloud migration and cloud optimization for TCO, utilization, and improvement in operational metrics such as availability, resilience, and reliability with various cloud platform partners.

As an AWS Advanced Consulting Partner, Now Cloud helps clients in implementing a highly scalable, and cost-efficient infrastructure on the AWS platform, with custom solutions for IoT and DevOps.

Leveraging our Google Cloud Platform partnership, we help customers with cloud strategy assessment, cloud platform evaluation, technology stack selection, solution architecture finalization, and application development and deployment.

Now Cloud is a Microsoft Gold Cloud Partner. As an AWS Advanced Consulting Partner, Leveraging our Google Cloud Productivity Partner and a Windows Partner, Now Cloud helps clients and Device Partner.
